

SZL Holdings — Empire APEX Meeting Dossier (v2)

Complete Package for May 6, 2026 Meeting with Mercy McInnis

Refresh: May 5, 2026 — supersedes the May 4 v1 dossier

Documents

#	Document	File	Purpose
1	Investor Pitch Deck (NEW)	APEX_v2_Investor_Pitch_Deck.md	16 slides, Series-A grade, full visual story
2	Meeting Script	APEX_v2_Meeting_Script.md	Slide-by-slide talking points, 30-minute meeting flow
3	Live Demo Guide	APEX_v2_Live_Demo_Guide.md	Tab-by-tab screen share walkthrough — aligned with the canonical investor demo path
4	Business Proposal	APEX_v2_Business_Proposal.md	Formal proposal document for APEX counselor
5	Operational Briefing	APEX_v2_Operational_Briefing.md	Detailed technical and procurement briefing
6	Capability Statement	APEX_v2_Capability_Statement.md	One-page capability summary for procurement
7	Audit Delta (May 4 → May 5)	APEX_v2_Audit_Delta_May5.md	What changed in the 48-hour refresh window
8	Investor Demo Path (canonical)	../../docs/audits/INVESTOR_DEMO_PATH.md	The 5-minute walkthrough certified by the May 5 audit pass

PDF copies of items 1–7 are bundled in `dossier/v2/pdf/` and in the meeting-pack zip.

 - [] Capability Statement v2 PDF ready to send via Teams chat
 - [] Operational Briefing v2 PDF ready to send via Teams chat
 - [] Pitch Deck v2 PDF on standby
 - [] [SAM.gov](#) tab open
 - [] GitHub org tab open
-

What Changed Since v1 (one-paragraph summary)

Two more peer-style papers were published (v9 and v10 of the Ouroboros Thesis); A11oy gained four new operator surfaces (Argo, PSYCHE, the Trust Plane triad, Agent Zero Trust); a new customer-facing artifact (ROSIE — Unified Decision Fabric) was promoted from internal tooling; the Covenant Proof Standard (CPS) shipped as a first-class API with three flagship payloads, tiered approval, and rollback; a live agent gateway service now enforces OPA policy at the runtime boundary; surgical Series-A polish was applied across all seven prior verticals; and a documented investor demo path was committed so the platform can be walked end-to-end on a known-good route. Customer-facing surface count is now 8 (was 7). Three peer-style papers are now public (was 1). Full delta in `APEX_v2_Audit_Delta_May5.md`.
