

The 6 Lenses of Business Observability

SZL's proprietary framework for seeing, measuring, and improving every business domain. Applied across every platform in the ecosystem.

- Revenue Health
- Operational Integrity
- Risk & Exposure
- Talent & Ownership
- Strategic Alignment
- Financial Discipline

01 Revenue Health

Is commercial momentum real and compounding?

KEY SIGNALS TO MONITOR

- Pipeline age and velocity
- Deal stage conversion rates
- Revenue stalls and backsliding
- Forecast vs. actuality gap

02 Operational Integrity

Are systems and people executing with fidelity?

KEY SIGNALS TO MONITOR

- Process adherence rates
- Workflow completion latency
- Exception frequency and recurrence
- Execution vs. plan variance

03 Risk & Exposure

Where are vulnerabilities accumulating?

KEY SIGNALS TO MONITOR

- Unmitigated risk items by domain
- Dependency concentration
- Single points of failure
- Regulatory or compliance gaps

04 Talent & Ownership

Is accountability clear and appropriately structured?

KEY SIGNALS TO MONITOR

- Ownership map completeness
- Unassigned critical functions
- Key person concentration risk
- Decision authority gaps

05 Strategic Alignment

Are daily decisions moving toward the long-term vision?

KEY SIGNALS TO MONITOR

- Initiative-to-strategy traceability
- Strategic drift indicators
- Priority coherence score
- Resource allocation alignment

06 Financial Discipline

Is capital deployed with precision?

KEY SIGNALS TO MONITOR

Burn rate vs. milestone achievement
Leverage ratio per initiative
Overhead-to-output ratio
Return on operational spend

From lenses to operational clarity.

The 6 Lenses are not a one-time audit. They're a continuous observability model — embedded into Lyte, applied across the SZL portfolio, and available as an advisory framework for any organization that wants structured visibility into what's working and what isn't.
